CITY TRUSTEES

State Board of Utilities Appealed to. Bond Issue Asked for Fire Department—Prepared to Defend Injunction Suit

All members present. A form of application from the trustees of Glendale to the trustees of Eagle Rock for permit to build a high tension line for the transmission of electricity to the latter city, was approved.

A request was received from J. P. Shropshire for permission to put in gasoline tank under ground at new garage on Broadway just west of Glendale avenue; also to put in sidewalk 18 inches from property line. On motion of Mr. Coker, request was granted. A communication was received from C. D. Thom requesting that action be postponed concerning work to be done by private contract on Verdugo road, granted.

Applications were received from F. W. McIntyre to put in sidewalk on Ninth and Tenth streets; granted. From same person to improve portion of Broadway by cement sidewalk on Broadway north side near Everett street; granted. Similar application for sidewalk along portion of Riverside Heights tract, from F. W. Lenier; granted. The chairman reported that temporary arrangements had been made for disposal of garbage. Demands were read and referred.

Clerk announced that time for protest of assessments for widening of Brand boulevard expired July 8th. On motion of Mr. Coker the assessment was confirmed and adopted. A resolution was read and adopted authorizing the clerk to file with the state board of public utilities a complaint against the Consolidated Water Co. to the effect that its service is unsatisfactory. The president of the board with the assent of the other members, added to the water commission the names of G. B. Woodberry and H. B. Lynch.

At this point the trustees went into committee of the whole. Upon reconvening, Trustee Tower offered the recommendation of the committee of the whole that a bond issue of \$20,000 be called for to purchase necessary fire equipment and lot or lots and building or buildings thereon; adopted. Another recommendation of the committee of the whole was adopted, this being to employ the firm of Jones & Evans to represent the city in the injunction suit brought by the Consolidated Water Co. and that an expert be employed to assist in the case by the preparation of a statement and further that H. B. Lynch be requested to prepare a physical valuation of the plant of the company. The president appointed Dr. A. L. Bryant, W. W. McElroy and Mr. Henderson as library trustees. The health officer reported a dog having died from hydrophobia and recommended that all dogs be kept muzzled for 90 days; the recommendation was adopted and the order passed.

AN ALLURING SCHEME.

A Los Angeles paper gives considerable space to the transfer of the rights of the Sierra Water Company to Wilson Foster, known as the "Klondyke Quartz King," who is also the owner of a tract along the line of the Pacific Electric near Ivanhoe known as "Klondyke Park." The tract comprises about 1650 acres in the upper end of Sycamore Canon, a picturesque piece of canon land possessing great possibilities. It is stated that "The new town will be about half a mile from the eastern boundary of the city of Glendale." The plans as set forth are very alluring and are stated to contemplate the expenditure of a half million dollars on the new town which is to be known as Paradise Park. The active promotion of an electric railroad is mentioned as one of the details of development that will be worked out by the gentleman from Alaska.

On Friday evening, July 19, an illumination will be observed on the Eagle Rock hills where a lawn fete is to be held on the neighboring grounds of Mr. Candee and Mrs. Pittman on Ellwood Drive. A supper and "The Grasshopper Cantata," form the chief attractions accompanied by all the pleasing features of an outdoor summer festival. It will make a fine objective point for auto parties and the Ladies' Aid Society of the Congregational church who have the affair in charge, are preparing for a large crowd.

WATER

The meeting of the Chamber of Commerce last Friday evening at Odd Fellows hall proved to be an indignation meeting over the water question. There was a large attendance of interested citizens present, the West Side in particular having out a strong delegation. Mr. Emery was in the chair and Mayor Watson was called upon for a statement as to what action the city authorities had taken to compel the Consolidated Water Company to give its patrons better service. Mr. Watson reported that after ascertaining that Mr. L. C. Brand of the Miradero company was willing to furnish the Consolidated company with extra water from his pipes, he had called up the office of the latter company and demanded that until the company succeeded in getting its well on San Fernando road cleaned out and ready for service, the shortage be made up by taking water from the Miradero company. The reply was such that Mr. Watson believed that the extra water would be turned in on the day following and the situation be immediately relieved. Several members of the audience had come primed for a tilt at the delinquent company and to advocate going to any extremes to get results. Several of these gentlemen got in their speeches, but there was such an unanimity of opinion that there was no chance for anything but a harmonious debate, no one having the disposition to defend the water company. Mr. Watson stated that the company had something like thirty inches of water independent of its wells, of which there are three that would be drawn on, one of them being at present depleted of its machinery, another now being sand-pumped and a third apparently abandoned. Mr. H. B. Lynch who had devoted considerable time to a study of the question, stated that the quantity of water going into the company's reservoir now ought to be ample for ordinary use, but as a matter of fact much of it is unmetered and consequently wasted. He estimated that the company is getting from Verdugo Canon by gravity flow, 50 inches with 25 inches more from the well (independent) for the supply of Tropico and their patrons in Glendale. An inch of water should serve 100 people. This estimate agrees with the experience of Los Angeles and also with calculations made by Mr. Griswold based upon actual meter usage. The citizens adjourned in a proper frame of mind after the appointment of a committee to be on hand the next

morning and see that the water was turned on. The committee consisted of the following: T. W. Watson, chairman; John Robert White, Jr., E. L. Payne, C. J. Letts, Mr. Southerd. The committee met the next morning and saw the water turned into the section of the Consolidated system, representing 400 families, whose necessities were immediately relieved. Since that time it is understood that the Tropico well is again in service and the water famine, brought about in an artificial manner, is a thing of the past.

A meeting of the water committee was held last evening (Thursday) too late to report. We understand that at that meeting a proposition was to be made by the Glendale Consolidated company to sell to the city of Glendale its holdings of Verdugo Canon water, about 700 ten-thousandths (shares) with the distributing system (within the city, for a consideration of \$66,000. It is possible also that the proposition of L. C. Brand to sell the Miradero company for \$28,500 would be reconsidered; the committee at its last meeting having recommended no action at present.

I. O. O. F. INSTALLATION.

Glendale Lodge No. 388, I. O. O. F., installed the officers of their lodge on Monday evening at their hall on West Broadway with impressive ceremonies. The following Odd Fellows comprised the installing team: J. E. Brown, of Hollywood Lodge, No. 353, District Deputy Grand Master; Frank A. Perry, District Deputy Marshal; Geo. C. Wilson, of Sawtelle Lodge, No. 128, District Deputy Grand Warden; W. W. Hunter, District Deputy Grand Secretary; F. G. Taylor, Glendale Lodge No. 388, District Deputy Grand Financial Secretary; James F. Robbins, of Hollywood, District Deputy Grand Chaplain; W. G. Wilson, District Deputy Grand Guardian.

Officers installed: H. E. Fish, N. G.; P. Diederich, V. G.; C. W. Brown, Rec. Secy.; G. L. Murdock, F. S.; J. A. Bullis, treasurer; O. L. Sampson, warden; M. E. Andrews, conductor; J. M. Barker, chaplain; R. E. Bryson, right scene supporter; F. D. Booth, R. S. to N. G.; K. Hall, L. S. to N. G.; E. Rich, inside guardian; Ray Sherman, outside guardian; Wm. Pierce, R. S. to V. G.; Chas. Lund, L. S. to V. G.

After the ceremony was over the visiting officers and members of the lodge repaired to the dining room, where they enjoyed a fine spread.

The Bank of Glendale has installed a new system of keeping individual accounts with its depositors. Envelopes are provided for every account and at the end of every day's business, by the new system depositors can obtain their account balanced up to date.

PROMISED FOR AUGUST 1st

A Definite Proposition from the Pacific Electric—Prospects Good for Extension of System on East Side of Glendale

RESOLUTION ADOPTED BY CHAMBER OF COMMERCE FRIDAY, JULY 12TH.

"Whereas, The citizens of the eastern portion of Glendale deem it most important that we have immediate improvement in our railroad facilities; and, Whereas, The Pacific Electric Railway Co. through its representatives has promised to make a definite proposition for the construction of an electric line on or near Glendale avenue, but has postponed action from time to time;

Now, Therefore, We, the members of the Chamber of Commerce do hereby resolve that unless the Pacific Electric Railway Co. offers a satisfactory proposition on or before August 1st, 1912, in regard to constructing such road, that we shall take the necessary steps and use all legitimate means in our power to assist E. D. Goode, or any other promoter who will undertake to construct a line from Broadway and Glendale avenue to the Yellow car line on the Glassell ranch, where a five-cent fare prevails."

The next day after the adoption of the above resolution a committee waited upon Manager Paul Shoup in regard to the matter. That gentleman called in Mr. Pillsbury, the road's engineer, who stated that the estimate had been prepared to cover the cost of the Glendale work, but that he wanted to visit that section again before taking any further steps. The committee represented the people as getting impatient and urged prompt action, the result being that Mr. Shoup finally said: "You may tell your people that by August 1st or by the middle of the month at least, we shall make them a proposition."

This matter being decided with some

definiteness, speculation is in order as to the course of the road. It was thought at first that the P. E. and the Salt Lake people would get together and that the track of the latter company up Glendale avenue would be electrified. It seems that this has not occurred and that the electric company will build parallel with and east of Glendale avenue. In this event the route most likely to be selected would in a general way seem to be one that would leave the present road at Tropico, bear eastward along the base of the hills or follow streets in that general direction to Adams street or the Childs tract line, about 700 feet east of Adams street at Ninth. Along this line it should be possible to secure a private right of way all through the city and thence up into the canyon and so on to La Canada. The latter place seems to have an understanding with the railroad people, and that is to the effect that they will get an electric railway and that it will come by way of Glendale. Ultimately however it will doubtless be a loop through the Verdugo Canon, La Canada to Pasadena.

The only acreage left in the original limits of Glendale for subdivision, lies in the eastern part of town and is now awaiting the advent of better transportation facilities to be put on the market with a reasonable prospect of being quickly seized upon by home seekers. That there will be "something doing" there when another electric road invades that territory, goes without saying.

DEATH OF MRS. SHOWALTER.

Mrs. Frank J. Showalter, who for several weeks past has been confined to her bed with an illness known to be serious and yet of which a different result was hoped for by her relatives and many friends, died at her residence on Maryland avenue last Friday, July 12th. Funeral services were held Monday morning at 9 o'clock, directed by Rev. O'Neill of the Catholic church, interment being made at Forest Lawn.

Mrs. Showalter was 34 years old and had for several years been subject to serious attacks of heart trouble which caused her husband to take her first to Colorado from their home in Iowa and later to California where they located in Glendale four or five years ago. The funeral was attended by a large number of friends and the floral offerings were beautiful and profuse.

RESOLUTIONS OF SYMPATHY AND RESPECT.

Resolutions of sympathy and respect were sent to Mr. F. J. Showalter by the T. F. B. No. 304, Glendale, as follows:

Whereas, Since the date of our last meeting we are called upon to mourn the loss of one of our members; therefore be it

Resolved, That with profound sympathy and sorrow for her death, we the members of her lodge do hereby testify to her exalted Christian character and the loyal support she ever evinced for our order in her life, and her dignified walk among us ever exemplifying the truth of the good that we can each do as members by emulating her example; that as members we desire to express our sympathy for the bereaved ones, and particularly her husband, our brother.

Resolved, That this resolution be transmitted to her husband and family and that a copy be sent to the GLENDALE NEWS.

DEATH OF G. W. STROBEL.

Mr. G. W. Strobel died at his residence, 1145 West Eleventh street, Monday morning last of tuberculosis, a disease which he had hoped to live down by coming to California as he did about six years ago but which finally caused death. The funeral services were held at 10 o'clock Wednesday morning, the body being placed for the present in a vault at Forest Lawn cemetery. The services were conducted by Rev. Knight, formerly of Redlands, now located at Long Beach, a former classmate of Mr. Strobel. The deceased was a native of New York in which state he had been a school teacher for several years, and was 42 years old. Mr. Strobel was a man of exceptionally fine character and made many friends in this vicinity, all of whom were conscious of the brave

and even cheerful fight which he made so long against the inevitable end. A widow survives him.

Albert W. Luebke died at 1520 Arden avenue, July 10th. The body was cared for by the Jewel City Undertaking Co. and shipped to Milwaukee.

Mr. Luebke was a conductor on the Los Angeles Pacific Railway system and a number of railroad men were in attendance at the funeral.

BIRTHDAY CELEBRATED.

Mr. Jesse Wilkes of 721 Acacia avenue, was very much surprised, when about thirty of his friends gathered at his home, on Monday evening of this week to celebrate his nineteenth birthday. Music and readings formed the principal part of the evening's program. At a late hour delicious refreshments were served. Among those present were: Mr. and Mrs. C. E. Corbaley, Misses Anna Smith, Josephine Gildersleeve, Ethel Smechel, Birdie Tingle, Louise Vroman, Ina McAlpine, Auntie McAlpine, Edna Schillet, Rebecca Stone, Messrs. Maurice Vroman, Jesse Haskins, Byron MacFayden, J. P. Vroman, Frank Schamberger of Los Angeles; Mr. and Mrs. W. R. Chandler, Miss Pearl Perkins; Messrs. Chandler, Carl Elliot and LeRoy Perkins of Glendale; Mrs. S. E. Wilkes, Misses Tempa, Clementine, Irene and Frankie Wilkes; Messrs. Floyd and Jesse Wilkes of Tropico.

ACKNOWLEDGES THAT HE IS OLD ENOUGH TO VOTE.

City Engineer Edward M. Lynch was reminded last Monday evening by an assemblage of friends to assist Mrs. Lynch and himself in celebrating the event, that his thirty-fourth birthday anniversary had come around according to the calendar. The gathering was in the nature of a surprise, but the gentleman honored "rose to the occasion" and appropriated gracefully all the hearty good wishes that were expressed, for a recurrence of many similar occasions.

Old neighbors of Mr. W. S. Sanders, along Kenneth road and elsewhere, will be interested in learning of the plans of Mrs. Sanders at their home in Highland Park on June 29th of a boy. The child is doing well but the mother has been in a precarious condition although she is slowly recuperating. Mr. Sanders formerly owned the property now belonging to Mr. John Brockman and still retains two acres there; he was a resident of Glendale from 1893 until two or three years ago.

Mrs. Anna L. Smith has returned from a few days' vacation spent at Catalina.

CHAPTER IV.

Almost a Proposal.

EARLY Sunday morning the old coach was got ready, for Miss Ellen sang in the church choir, and we had to make an early start in order that she might get there on time. "I reckon you are not a churchman," said the colonel. "For, if I remember rightly, the Palmers were always blue-back Presbyterians, but most people down here are Episcopalians, so don't you go unless you feel so inclined."

I acknowledged to being a member of the Presbyterian church, but expressed a willingness—nay, even an eagerness—to go, for I knew that Miss Ellen would not be at home. The drive that morning was a memorable one. Bud sat on the box and did the driving, with McKinninny Sam by his side. Colonel and Mrs. Turpin, Miss Ellen and I occupied the seats on the

maids. I had seen the George Washington coach at Mount Vernon, and I could not help thinking of it as I looked at this heirloom of the Turpins. I might have thought that it had once been used by General Oglethorpe himself, so ancient did it look. The colonel assured me in a most serious vein that it had never had that distinction, though there was a tradition in the family that it had been occupied by General Washington on his famous visit to Fort Augusta after the days of the Revolution, when he stayed at Meadow Garden, the home of the Waitons, the head of which family had been one of those to sign the Declaration of Independence. The coach was still strong and did not look out of place as it rambled through the pine forests, but it would come near to upsetting at times when going down hills where the roads were washed into deep trenches.

Every now and then Bud would bring the team to a stand and, telling us that the trace or some other part

The Coach Would Come Near to Upsetting at Times.

of the harness had broken, would get down and, taking a bundle of twine from his pocket, tie the ends together, and soon we would start again. I cared not how many times the traces might snap or how long it took us to get to church while opposite to me sat Miss Ellen, her eyes laughing into mine every time the horses were brought to a stop.

"Bud, the harness is getting pretty old," said the colonel with grave dignity when Bud halted the coach for the fifth time, I think, and just within sight of the old church.

"Yes, father; it must be considerably older than I am," answered Bud cheerfully as he used the last bit of twine he had, "but it will hold together another six months, I reckon," smiling into the coach at Miss Ellen and me.

"Do you think the coach will hold together that long, Bud?" nervously asked Mrs. Turpin, for her faith in the vehicle was but little. Indeed, she had suggested using the wagon before we started.

"How can you ask such a question, Mary?" said the colonel, showing annoyance. "Has it not lasted ever since George Washington visited Augusta? It will be here when we are gone and serve your grandchildren well yet. I'll be bound," at which Miss Ellen colored and Bud laughed heartily.

Bud drove to the back of the church, where there was a long row of horse stalls. There were several old coaches standing by, but none as ancient or as grand as ours, and I found myself taking pride in the apparent antiquity

of the family I was visiting and remembering quite well sneering at the newly painted buggies which were lined along the fence. We not only had a few well up under the chancel, but occupied a place of honor among the middle aisle aristocracy. I had never heard Miss Ellen sing and did not know now whether she was soprano or alto. I was tempted sorely to look around just once to see her in the organ loft, but so many eyes were fixed on me that I kept mine fixed religiously on the minister. After sermon the Turpins held quite a reception under the pines in the yard, and I was given an opportunity of seeing in what respect they were held in the county. Several of the young men invited me to hunt with them and offered me their guns, *hells and dogs*.

"We know Bud is pretty busy," they would say, "so if you give the word we will ride by for you some day this week." Miss Ellen was the center of attraction, and every man tried to edge himself within the circle that surrounded her in order to receive one passing remark from her at least. She seemed entirely unconscious of the influence she exerted in her limited sphere, yet apparently took this homage for granted, or so it appeared to me.

"We must have a dance in the hall while Mr. Palmer is here," I heard her saying to some of the girls who were standing near, at which they immediately set up such a clatter and chatter as a hundred sparrows might be expected to make upon the first warm day in spring. The following Friday was settled as the day, and all boys and girls as well agreed to come Thursday and help cook the supper for the party, and each agreed, too, to bring something. Margaret Robertson said she would bring all the sugar

needed for the cake, Bert Simmons promised three quarts of cream for the allabub, and Jim Barrett said he would make up the rest that might be needed. Ruth Howard would donate flour, and another offered chickens for the salad, and so on down the list.

"Be sure to bring them picked," George Adams," said Miss Ellen, laughing, to the lad who had donated the chickens. "For if Sally Stovall is there you will be of no assistance, as we know from experience. And two of you girls must come prepared to spend the night of the ball to help clear away the remnants the next day." All volunteered, and Miss Ellen had a hard time to choose between them, so highly was this honor prized. The rector, coming out and hearing what all the chatter was about, delivered a lecture upon the frivolity of youth and ended by saying:

"And if no one has seen about the music I promise to furnish that as my share. I will bring my old violin and be one of the band myself," which announcement was greeted with applause, for I heard afterward that no one could keep such good time as Mr. Lamb, and the dark band always played better when he led it.

That afternoon a number of older people in the county called, and Miss Ellen served tea on the shady side of the house under the porch. Later Bud and I rode horseback. He took me to see the camping ground of General Sherman, which Miss Ellen had pointed out to me the night of my arrival, and from there we took a circuitous route home. He told me many of the difficulties of farming in the county. We passed a number of farmers, and from each I learned something and stored up in my mind many a quaint anecdote for my letters from these simple country folk. One time when Bud had ridden forward to consult some one about getting extra hands I rode up to a stolid looking individual whom I saw sitting on a rail fence near by whittling a stick. His beard and hair were unkempt, and his whole attitude was one of supreme indifference to his surroundings.

"Good morning," I said.

"Same to you," he answered without looking up to see who had addressed him.

"How are your crops this year?" I asked.

"Poor," was his monosyllabic reply.

"Good last year?"

"Nup," with maddening indifference.

"I hope your crops will be better next year," I ventured again.

"Doubt it," was all he would answer.

The field back of him did not look encouraging. Despairing finally of getting any information from him, I drew rein, preparing to join Bud, adding, however, before leaving:

"Well, that's too bad."

With sudden animation he stopped whittling for a moment to look up and remark:

"Tain't as bad as you think, my friend. I don't own this land."

I rode off, laughing at this quaint conception of the value of land. He had not intended to be either witty or humorous, but was sincere in trying to disabuse my mind of a false impression I might have of the extent of his troubles. When Bud rode up he explained to me that the man farmed only on shares and had he owned the land he would have been held responsible for the interest on the mortgage. Indeed, he said that to own certain of the land around that section was regarded as a calamity.

That ride with Bud gave me much material for a letter, and when I went to my room I wrote until after midnight. I touched only on the general condition of the planters and petty farmers and made use of such apt comments as I had chanced to pick up away from the Pines. I read and re-read my letter to make sure it could not be traced to Oglethorpe or its immediate vicinity. I was satisfied that it would describe many of the older counties in the state; but, looking back now, it seems to me that I was too general in my deductions and that the illustrations, while unique, did not give

a proper conception either of the manners of the people or of the conditions of the country save in the exceptional case. But I had been trained to look for the exception, I fear, which I think is the main fault of all young people who have a pen put into their hands, who are prone to point out the ridiculous side of life instead of seeing the manhood and the strength which often underlie conditions, no matter how strange they may appear at first.

But my work for that week was done, and I arose the next morning with the feeling that I could do with my time as I wished without trying to remember incidents or conversations which might make interesting reading matter in Boston. I rode to the station and mailed my letter, and on my return I found Miss Ellen engaged, as she said, in putting the house to rights. "For if we leave all until the last day, very little will be done," she said, and so I spent the day lending a hand here or lifting a piece of furniture there. Miss Ellen mended many an old lace curtain that day, while I would sit, pipe in mouth, watching her fingers move backward and forward and keeping my eyes on her face when her own were fixed on the work in her lap. I was on the point several times of telling her why I had come south, to confess that there was no kinship possibly with the Kentucky Palmers, but after several efforts, which really got no further than planning them, I would forego all determination to play a strictly honorable role, and then, too, I feared it might put Colonel Turpin in a false position as well as myself, or so I chose then to think. That evening Miss Ellen played more beautifully than I had ever heard her play before, and she sang some old time melodies for us too. Her voice was sweet, and she sang simply and without effort. Before bedtime we had gathered around the piano and sung glees, even the colonel remembering enough from his old Princeton days to lend discord occasionally. It was an uneventful but happy day, and I swept me many leagues nearer to the goal to which I had been drifting unconsciously since the first minute I had seen Miss Ellen and looked into her honest brown eyes.

The next morning some of the young men of the county, Bud's friends, came for me to go hunting with them. I got into some of Bud's hunting togs and with his gun on my shoulder rode with them to the hunting lodge, from which point we scoured the country for many miles that day. The sport was new to me on account of the game we found. I had indifferent luck, however, though the others filled their bags with plover, robins, doves and larks. There were plenty of blackbirds, but we scorned shooting these, though I was told they make a good pie, which is a favorite dish with the colored hands on the farms. I saw something of each member of the party during the day and

found them all, to a greater or less degree, in love with Miss Ellen. Jim gave me much information about the others, but added:

"She just laughs at them all and won't even let them pay her compliments as they do to the other girls."

"And you?" I said.

"Oh, me! She would not even look at me," said the manly young fellow, looking me squarely in the face, not ashamed to confess the hopelessness of his love. I made up my mind that if it ever came in my way to do Jim a good turn, no matter how my own suit came out, for I was now intent upon winning Miss Ellen, I would do it for his open and honest confession.

We were a happy party as we lunched at the lodge. We barbecued our robins and some of the doves on little spits over a charcoal fire and stewed some with rice. We rode home early, however, more to see Miss Ellen, I think, than for any other reason. Each would have left all his game at her feet, but she would not have it so, but said she would take what I had killed in part payment for my board, which innocent remark brought a deep flush to my cheek, remembering, as I did, my unhappy mistake when I first arrived at the Pines. We described our sport, and she showed interest in everything we said and all we had done. Presently, looking at the sun, she exclaimed:

"Come; go home, you boys, for I am not going to ask you to stay to dinner

I Rode With Them to the Hunting Lodge.

and be here early Thursday morning or I will not dance with any of you at the party." It took them but a few minutes to get their horses and disappear down the road.

"And you, sir," she said, turning to me as we lost sight of the others—"what are you going to do in the way of reparation now that you and your friends have put me back in my work?"

"Set the table and bring the wood," I cried.

"Come; you shall set the table, for the wood has been brought in already."

I followed to the dining room, where she threw me the tablecloth.

"Be careful," she laughed, "for it will not bear rough handling, though I dare say father would tell you that it has lasted since General Oglethorpe breakfasted off it and therefore will last after we are dead."

And so we set the table, Miss Ellen running to the kitchen every now and then and coming back to straighten the knives and forks, telling me that men were no earthly good about a house. Once our hands touched while placing the plates, and instantly, as if by instinct, we faced each other, and our eyes met. After that she kept on the other side of the table from me and later sent me upstairs to dress for dinner. When I came down there seemed to be a glow on her cheek, and in her hair there was stuck a wild rose which I had brought her from the woods.

The next three days all was bustle. The boys and girls came on Thursday, each bringing something in a basket. So much cooking I had, never seen. One was put to beat the whites of the eggs and another the yolks. Some one was detailed to mix the cake and still another to watch it after it had been put into the oven. Margaret Robertson was given a squad and ordered to decorate the hall with greens. The jelly was made, and some one was sent with it to the springhouse, where it was left to cool and harden. Every now and then the colonel would appear at the kitchen door to tell us what times they used to have before the war when he was a boy.

That night when all were gone and Bud had fallen asleep in a chair Miss Ellen and I went on the lawn to look at the moon.

"Miss Ellen," I said, "I am happy here, and I hate to leave the Pines."

"Why do you talk of going?" she said, her voice subdued and her face turned away.

"Because I do not want to outlive my welcome," I said.

"No one does that at the Pines. As you see, there is not much to offer, but our friends are always welcome. Bud likes you, and father seems younger since you came."

"And you?" I said, drawing a step nearer to her.

"Oh, I!" She gave a little gasp and ended with a laugh. "It is as easy to cook for five as it is for four, so don't think of leaving on my account."

"That is what hurts," I said. "If you did not have to do this or if I had only known you long enough to tell you all that is in my mind," I ended bitterly.

She held up her finger and, laughing in my face, said: "But you haven't, you know. So you must stay a long time and then come back some day and tell me," she added roughly.

"Never," I said. "I will tell you before I leave if I have to stay the year out."

"Bravely spoken!" she cried. "And I will do what I can to make you take Christmas dinner with us. And now remember to be nice to all the homely girls you see tomorrow evening, and I promise not to get jealous even if you dance with the pretty ones as well."

Bud was still asleep when we got back to the house. We roused him, and all went quietly to bed. I did not sleep much that night, and so, when I did not think Miss Ellen did either, for I did not feel as lonely as when everybody was unconscious in that spacious mansion.

Deep down in their hearts, if the truth were told, the majority of grown-ups have a strong regard for fairy stories, and there are few of us with so little imagination that we have not a liking for these light, fantastic fables. Just as there are all sorts and conditions of men, so are fairies diverse as a class. The banshee is an Irish fairy, and Scotland calls it a brownie. An elf is a fairy of diminutive size, supposed to be fond of practical jokes. Gnomes are eastern spirits, sometimes good, but occasionally bad. A gnome is a guardian of a coal mine or quarry and a goblin a phantom spirit. Imp is the Welsh spirit of mischief and Jack o'-lantern a bog or marsh fairy who loves to mislead. Every one knows the mermaid as the sea spirit, and naiads are water nymphs. Oberon was king of the fairies, and a pixie is a fairy of Devon. Puck, full of fun, is Swedish, and a sylph is a spirit of the air.

Houses Keep London Warm.

The temperature of the air in London is raised by the artificial sources of heat existing in it no less than two degrees on the annual mean above that of its immediate vicinity. Mr. Howard, in his work on climate, has fully established this fact by a comparison of a long series of observations made at Plaistow, Stratford and Tottenham Green, all within five miles of London, with those made at the apartments of the Royal society in London and periodically recorded in "Philosophical Transactions." In explanation Mr. Howard refers to the heat induced by the populations (just as the temperature of a hive of bees and from the domestic fires and from the foundries, breweries, steam engines and other manufactures.—John Timb's "Curiosities of London.")

ON A NATIONAL BASIS.

Fight Against the Fly Waged by the American Civic Association.

The importance of combating the fly nuisance is indicated by the fact that the American Civic Association, which has for years been the principal agency working, according to its motto, "for a better and more beautiful America," has during the last two years added to its activities (such as the movements for the preservation of Niagara falls, the establishment of national parks and the elimination of the smoke and billboard nuisances) the special work of a "fly fighting committee," in which it has enlisted the co-operation of a multitude of health boards, civic betterment societies and public spirited individuals throughout the country. The education of the people to the dangers of flies as feeders on filth and disseminators of disease germs has been carried on, under the auspices of this association, with a vigor and success which can be paralleled only by the anti-tuberculosis movement, backed by the Red Cross society. Indeed, many Red Cross workers are aiding the anti-fly campaign. Miss Mabel T. Boardman, chairman of the American Red Cross national relief board, is a member of the American Civic Association's executive board. The president of the association is J. Horace McFarland. The secretary, who is in charge of the Washington headquarters in the Union Trust building, is Richard B. Watrous.

EDWARD HATCH, JR.

Something About "the Man Who Made the Housefly Infamous."

When the housefly becomes as extinct as the dodo and fossil specimens labeled "Musca domestica, abundant in United States up to about 1915 A. D." are preserved in glass cases in museums the name of Edward Hatch, Jr., ought to have a place on the label if not a tablet of its own.

Chairman of the fly fighting committee of the American Civic Association and chief inspirer of the "swat the fly" movement, he already has a clear title to renown as "the man who made the housefly infamous."

Though actively engaged in the direction of a great dry goods house,

EDWARD HATCH, JR.

he found time to organize the opposition to the pollution of rivers and harbors by sewage and manufacturing wastes.

His investigation of the New York water front, where flies swarm upon the filth deposits, brought him to a realization of their disease bearing activities. Once convinced of these, he began his anti-fly campaign about four years ago and, though ridiculed at first as a crank, has brought the whole American public around to his point of view. He has done this through the liberal expenditure of his time and money and his utilization of the hearty co-operation of newspapers, magazines and health organizations.

On Mr. Hatch's committee are Dr. Woods Hutchinson, the well known writer on health topics; Mrs. Caroline Bartlett Crane, expert on civic betterment; Dr. S. J. Crumblin, secretary of the Kansas health board, and Dr. Joseph Y. Porter, health officer of Florida. The most recent publication of the committee is the Fly Fighter, devoted to the prosecution of the 1912 campaign and issued from the headquarters at 156 Fifth avenue, New York city.

WINGED SCAVENGERS.

Travelers tell us that many oriental countries are content to let dogs be their scavengers and do the work of garbage cans and carts.

We have long been content to let flies finish up after our street cleaners and careless stablemen and to infect our houses by means of their dirty feet.

The fly's legs are well suited to carry bits of filth. Each foot has two claws, by which it clings to rough surfaces, and two pads covered with thousands of tiny sticky hairs, which assist in clinging to smooth surfaces. His feet are constantly becoming matted up with the contaminating matter which he has traversed, and he frequently stops on our food or dishes to clear his feet.

This mechanical transfer is a slight matter in comparison with the matter excreted—fyspecks. The flies are born in filth too disgusting to describe. Probably ninety-five out of a hundred flies walking over our food were hatched in the filth of the stable or cess pool.—Bulletin of Health Education League.

Ohio and the Buckeye.

The name Buckeye, though of earlier origin, became indelibly affixed to Ohio in the fire eating campaign of 1840, when General William Henry Harrison started out as the Whig candidate for the presidency and shortly became the "log cabin and hard cider" candidate. He was pictured sitting in a rough cabin, a barrel of elder handy to his elbow and strings of buckeyes upon the wall at his back. Cabins of buckeye poles were erected upon wagons and carried in Whig parades. One of the songs of the campaign ran:

We'll wheel it to the capital and place it there elate
For a token and a sign of the hoany Buckeye State.

The predecessors of the modern button men were a credit to the trade. In the Harrison campaign they sold Ohio buckeyes throughout the country, came from the buckeye tree and woven emblems in the shape of the buckeye leaf. Thenceforth Ohio was the Buckeye State.

The unassertive tree, with its worthless nut and fetid bark, is not, it is true, anything to take a vast pride in. But there's no escaping the sobriquet. That is established—possibly for as long as Ohio is a state.—Toledo Blade.

Greenland's Glaciers.

The iceberg has its birth in the rocky folds of western Greenland. Under the ever present and irresistible pressure of "Greenland's icy mountains," the great ice cap, the remnant of that which once extended down over the northern part of the present United States, countless glaciers move toward the sea from an elevation of 9,000 feet. This sheet of ice covers an area estimated to be from 300,000 to 400,000 square miles or from six to eight times that of New York state. It is believed that its depth in some parts is more than 6,000 feet. The ice gradually moves down the folds to the sea level, having a greater or less speed, according to the season of the year, some of the glaciers traveling in the summer time as much as fifty or sixty feet a day.—Exchange.

A Test in Courtesy.

"In banking, as in personal finance," remarked a suburban banker the other day, "the old adage, 'Take care of the pennies and the dollars will take care of themselves,' holds good. Just to illustrate, I've been a banker for thirty years. Courtesy made my success largely. A couple of years ago a woman whose brothers were depositors with us dropped in to see me and said she wanted to open an account. I arranged everything and then asked how much her initial deposit would be. When she said \$5 I never quavered. I took it. Two days later she deposited \$15,000. That account has never averaged less than \$5,000 from that day. See what she was up to? She wanted to know how courteously small depositors were treated."—New York Tribune.

One on the Court.

When John Barton Payne was on the bench he was considered a purist and showed impatience if a lawyer slipped a cog and committed a grammatical error. On one occasion he "called" counsel for an assault upon the king's English with intent to maim and took up the examination of the witness himself. Later in the trial the attorney had considerable difficulty in bringing out the location of a certain ash box, and Judge Payne turned to the witness to say sharply:

"You knew this ash box, didn't you?"
"No, your honor," answered the witness, "but I knew of it."
"One on the court," observed Judge Payne. "Proceed with the case."—Chicago Post.

His Deathbed Jest.

When Charles Matthews the elder was lying upon his deathbed a friend, intending to give him a dose of medicine, handed him by accident some ink from a small vial. On discovering what too late the mischief he said, "Good heavens, Matthews, I have given you a dose of ink!"
"Never—never mind, my boy," was the faint reply. "I'll swallow a bit of blotting paper."

UNIVERSITY OF CALIFORNIA.

Is the meadowlark a friend or an enemy of the farmer? This is the question the state fish and game commission has asked the University of California to help solve.

At present the law forbids killing the meadowlark, thus protecting the most cheery of the California song birds. But grain growers have brought the charge that the meadowlark pulls the green blade of the sprouting grain, pulls up the seed, and swallows enough in a day to make a serious difference in the year's yield. On the other hand, the meadowlark eats harmful bugs and helps to keep down insect pests. To find which way the balance tips, the state fish and game commission has established a fellowship in the university, and this fellow, Harold C. Bryant of Pasadena, has just been reappointed to continue for all of the next university year the work of examining the contents of the stomachs of meadowlarks, finding what insects and what seeds they contain, and so giving scientific data for pronouncing judgment on the meadowlark. The present indications seem to be that this bird does more good than harm.

Conservation of the deer of California is another problem in which the university has been asked to help. Frank C. Clark of Laytonville, for a year past James M. Goewey Scholar in the University of California, has been investigating a parasitic disease which causes havoc among the deer in some parts of California. Now he has been appointed state fish and game commission fellow in the university, and will divide his time between expeditions in the mountains and work in the laboratories at Berkeley, studying the causes and the prevention of various diseases to which deer are subject.

An entire new exhibit entitled "In the Footsteps of the Cliff-Dwellers" and illustrating the life and remains of the prehistoric inhabitants of the Southwest and their modern descendants, will be opened to the public for the first time on July 4 at the University of California Museum of Anthropology, at the Affiliated Colleges on Parnassus avenue in San Francisco. This is the fifth successive display to be put on view in the "Revolving Exhibit Room" in the nine months the museum has been open.

The collection, which is really a combination of eight separately formed collections, reveals especially the intimate and personal side of the existence of the famous "inhabitants of the prehistoric." The sandals which they wore, the tiny fringed skirt which some little girl a thousand years tied around her waist, the paint with which her mother decorated herself or the bone needle with which she sewed, are to be seen by the side of the hunter's bow and arrow.

Coming down to a more recent period the pottery of the modern Pueblos, still illustrates the ancient methods of making the ware. The Navaho blanket is an up-to-date survival in wool of the old technique in aboriginal grown cotton. The ceremonial dolls and brightly colored snake dance paraphernalia of the Hopis contain the religious symbols used by their prehistoric ancestors. The whole picturesque modern Indian life of Arizona and New Mexico thus finds its explanation in the remnants of the Cliff-dwellers past.

Of special interest are a blood-painted bow and a stone metate which once belonged to the notorious Geronimo, who for four years succeeded in defying or eluding the United States army. There is also a series of masks of Pueblo Indian heads cast in plaster from the living subject and therefore absolutely faithful in every detail.

The exhibit will remain on view only during July and August, when in consonance with the museum's policy it must be removed to give place to another special temporary installation. The Egyptian, Californian, Peruvian, and Greek halls remain permanently open to the public from 10 to 4 daily, including Sundays and holidays.

City Clerk of the City of Glendale.

RESOLUTION NO. 493.

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE ORDERING CERTAIN WORK TO BE DONE ON SIXTH STREET.

The Board of Trustees of the City of Glendale do resolve as follows:

Section 1. That the street work herein described is required by the public interest and convenience, and the Board of Trustees of the City of Glendale, State of California, hereby orders the same to be done according to the Specifications and Plans adopted for said work, and under the direction and to the satisfaction of the Superintendent of Streets of said city, to-wit:

That a cement sidewalk five (5) feet in width be constructed along each side of Sixth Street from the East line of Central Avenue to the West line of Glendale Avenue (extending along such described portion of Sixth Street upon which a cement sidewalk five (5) feet in width has already been constructed to the official line and grade, said sidewalks to be constructed according to the specifications for the construction of cement sidewalks, on file in the office of the City Clerk of the City of Glendale, said specifications being numbered 1.

Section 2. The GLENDALE NEWS, a weekly newspaper of general circulation, published and circulated in said City of Glendale, is hereby designated as the newspaper in which this Resolution and notice of said street work inviting sealed proposals shall be published in the manner and form and by the persons required by law.

Section 3. The City Clerk of the City of Glendale is hereby directed to post conspicuously for five days on or near the Chamber Door of the Board of Trustees, in the manner and form required by law, a notice with Specifications, inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish for two days in said newspaper hereby designated for that purpose, as aforesaid, in the manner and form required by law, a notice of said work inviting sealed proposals or bids for doing said work and referring to the Specifications posted or on file.

Said notice shall require a certified check or bond, either, as prescribed by law, and for an amount not less than ten per cent of the aggregate of the proposal. Said City Clerk is also hereby directed to publish this Resolution for two days, in the manner required by law, in said newspaper designated for that purpose, as aforesaid.

Adopted and approved this 8th day of July, 1912.

Resolution No. 494.

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE ORDERING CERTAIN STREET WORK TO BE DONE ON PENN STREET.

The Board of Trustees of the City of Glendale do resolve as follows:

Section 1. That the street work herein described is required by the public interest and convenience, and the Board of Trustees of the City of Glendale, State of California, hereby orders the same to be done according to the specifications and plans adopted for said work, and under the direction and to the satisfaction of the superintendent of streets of said city, to-wit:

First: That all that portion of Penn Street from the East line of Pacific Avenue to the West line of Columbus Avenue be graded and oiled in accordance with the plan and profile on file in the office of the City Engineer, and specifications for grading and oiling streets in the City of Glendale on file in the office of the City Clerk of the City of Glendale, said specifications being numbered 10.

Second: That a cement curb be constructed along each line of the roadway of said Penn Street from the East line of Pacific Avenue to the West line of Columbus Avenue (excepting along such portions of the lines of said roadway along which a cement curb has already been constructed to the official line and grade) in accordance with the specifications for the construction of cement curbs on file in the office of the City Clerk of the City of Glendale, said specifications being numbered 2.

Third: That a cement sidewalk five (5) feet in width be constructed along both sides of said Penn Street from the East line of Pacific Avenue to the West line of Columbus Avenue (excepting along such portions of said Columbus Avenue upon which a cement sidewalk five (5) feet in width has already been constructed to the official line and grade). Said sidewalks to be constructed according to the specifications for the construction of cement sidewalks on file in the office of the City Clerk of the City of Glendale, said specifications being numbered 1.

Sec. 2. That the said Board of Trustees of the City of Glendale finds, upon estimates directed to be furnished and furnished by the City Engineer of said City of Glendale, that the total cost of said proposed work or improvement will be greater than fifty (50) cents per front foot along each line of said street so proposed to be improved, as hereinbefore set forth, including the cost of intersection work assessable upon said frontage, and said Board of Trustees determines that serial bonds shall be issued to represent the cost of said work or improvement; said serial bonds shall be extended over a period ending nine (9) years from and after the second day of January, next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable by coupon on the 2nd day of January of every year after their date until the whole is paid, and the interest shall be payable semi-annually by coupon on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent per annum on all sums unpaid, until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also

for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

Sec. 3. THE GLENDALE NEWS, a weekly newspaper of general circulation, published and circulated in said City of Glendale, is hereby designated as the newspaper in which this Resolution and notice of said street work inviting sealed proposals shall be published in the manner and form and by the persons required by law.

Sec. 4. The City Clerk of the City of Glendale is hereby directed to post conspicuously for five days on or near the Chamber door of the Board of Trustees, in the manner and form required by law, a notice with Specifications, inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish for two days in said newspaper hereby designated for that purpose, as aforesaid, in the manner and in the form required by law, a notice of said work inviting sealed proposals or bids for doing said work and referring to the Specifications posted or on file.

Said notice shall require a certified check or bond, either, as prescribed by law, and for an amount not less than ten per cent of the aggregate of the proposal. GLENDAL, CAL., JULY 19, 1912

SENATOR WORKS' OPINION OF THE CALIFORNIA MACHINE.

"If they attempt, by direct or indirect means, to hold on to the machinery or offices of the old party, while working with or for a new one, or its establishment, they can no longer cry thief to the men they charge with stealing delegates at Chicago, and NO MAN OF RIGHT POLITICAL PRINCIPLES CAN CONSISTENTLY SUPPORT THEIR NEW PARTY."

The society for the prevention of cruelty to animals ought to get after the dog muzzlers.

No wonder that Senator Works balks at the Roosevelt program. He may be freakish but he is not dishonest.

The weather department has shipped in an invoice of eastern weather during the past few days, "just like we used to have back home," only not so much so.

A dispatch from Pasadena announces that observers on Mt. Wilson have discovered a cool spot on the sun which appears to be moving eastward. There is hope for Chicago yet.

The last steel girder in the fifty-five-story Woolworth building in New York, the tallest building in the world, was riveted last week and the American flag flies thirty feet above the top.

About this time of year the man of affairs who has buckled down to hard work for the past few months, takes a vacation and is surprised upon his return to discover that the world during his absence went on just the same.

The Lissner Committee of Fifteen, irreverently alluded to sometimes as "The Bunch," is having a hard time nowadays in selecting candidates warranted not to kick over the traces and sufficiently tamed to eat out of the hand.

It will be noted that it was the Miradero Water Company that came to the rescue of the Consolidated Company's patrons in the water famine of last week. Looks as if it would be a pretty good thing for the city to accept the offer made to sell it this property.

The Los Angeles Express declares that the Taft followers in the impending election in this state will "take part in the contest on exactly the same terms and under the same conditions as the Roosevelt supporters." This would be true if the facts were different. The Republican electors will be named by the assembly and senatorial nominees of the party chosen at the primaries, ACTING WITH THE HOLD-OVER SENATORS!

As the hold-over senators were chosen two years ago and are almost all Roosevelt supporters, the twenty of them would be sufficient to control the action of the committee even if the Taft men secured a majority at the polls. And this steal was put through two years before the alleged theft at Chicago which serves as the excuse for a varied assortment of burglarious acts.

HOME PRIDE.

There are still a number of people in Glendale and vicinity who do not take a proper interest in local affairs. The fact that they live here is evidence that they think well of the place but their indifference to local conditions, an apparent lack of interest in their neighbors and the affairs of the community, indicates that they are not making the most of their opportunities.

It is a high privilege to be allowed to play even the smallest part in the building up of a community and in doing that work there is a chance for all. Those people only half live who exist wrapped up in themselves and lose an opportunity of mixing with their neighbors. There is a good deal

said in certain circles about the "unearned increment," but the apparent beneficiaries of this selfish appropriation of things not paid for, is not confined to the absentee landlord nor the owner of valuable property made more valuable by the acts of others; it, on the contrary, strikes at the selfishness of citizens everywhere who take no part in public affairs and do not exert themselves to do at least some little good in private life. Every business concern that moves into the community for the purpose of supplying the people with the necessities, possibly the luxuries of life, is a valuable addition to the community if its mission is successful, and usually if it fails to succeed, failure comes from a lack of support by the people. It should not be necessary for the big department stores of Los Angeles to send wagon loads of goods into this section every day. The stores of Glendale and Tropic are well equipped to supply local needs and a spirit of loyalty to home concerns should prompt the people to give them support. Notwithstanding our close proximity to Los Angeles, we do not need in any sense to be dependent upon that city in the greatness and marvelous progress of which we take a proper pride. But the business concerns at home should not be compelled to compete with any outsider.

PROGRESSIVENESS UP TO DATE.

Because the people of California knew that reform was necessary in political affairs in the state, they put into power a new political organization dedicated to reform two years ago. This organization by all the skillful arts of the demagogue proceeded to entrench itself so strongly that nothing short of a political revolution could oust it from power. This revolution is already under way; the people are having demonstrated to them day by day the fact that the organization headed by Johnson, Lissner, Earl and others has no other object in political life than to perpetuate its power over the people of the state. They put upon the statute books a law providing for the recall of public officials, ostensibly for the purpose of putting direct power into the hands of the voters, and at the same time provided for an increase in the number of appointed officials who are not subject to recall. A railroad commission previously elected by the people was made appointive, and the members, being appointed by the governor, now have full power over the public utilities of the state. At the present time a charter committee is at work framing a law that is intended to take from the people the power to elect a large number of their own official servants and put the appointive power into the hands of a few.

In the legislature of two years ago this political organization, by means contrary to law, elected a United States senator. Within a few days this senator, whose private virtues his political opponents have never assailed, saw fit to publicly criticize the action of these men in claiming to be Republicans after they had withdrawn from a Republican convention, repudiated a Republican candidate and a Republican platform, and declared their intention to form another party. He rebuked them for still masquerading as Republicans and holding on to the machinery of the party which they are endeavoring to destroy. Replying to this rebuke, some forty of them, assuming to be the people of California, united in sending to Senator Works a telegram demanding his resignation, giving as the reason for their demand the fact that they had elected him and that he had no right to criticize them! The senator, in his reply, very properly repudiated their claims, denied that they are Republicans, and refused to resign. It remains to be seen how much longer the intelligent, patriotic people of California will follow blindly in the wake of a party of leaders who have demonstrated their unfitness and lack of political honor, but we believe that the end is in sight, for in the campaign now on candidates for office in this county are taking pains to make the people believe that they are not backed by "the Committee of Fifteen."

IF NOT, WHY NOT?

Ralph Rogers is the manager of the sales and distribution of 62 inches of the water of Verdugo Canyon to the cities and inhabitants of the cities of Glendale and Tropic; 62 miners inches in water from the Verdugo Canyon, in 1911, was a flow of 4,251,520 cubic feet a month, which at services of 800 cubic feet a month is sufficient for 5000 services, and then some. At \$1.25 per month for these services the annual revenue would be and perhaps was \$75,000, in 1911. Isn't that straight? If not, what is the matter with it?—Tropic Sentinel.

ELECTRIC CABLE THROUGH EAGLE ROCK IMPORTANT MOVE.

An unexpected but nevertheless, interesting proposition was brought before our city trustees on last Monday evening. The City of Glendale, through their city electrician, Mr. Lynch, asked for a right to run a high tension—33,000 volts—electric cable through Eagle Rock from Glendale to Pasadena.

It was learned that the city of Glendale owns its own lighting plant and the present contract for electricity has about expired and they expect to get their supply next year from the Los Angeles aqueduct power, connecting with the Garvanza power line. But while waiting for the completion of the aqueduct power Glendale has arranged to get "juice" from Pasadena. To do this Glendale will have to run a line through Eagle Rock to get the electricity.

Mr. Lynch says that they will connect next year with the Garvanza line of the aqueduct power line, so in either case they would want to run a line through Eagle Rock.

Being asked what would be possible in the way of securing electricity from them for this city, Mr. Lynch said

that Glendale was now supplying electricity for the Casa Verdugo district outside of the city limits, and also to the Tropic plant, and he knows of no reason that would prevent them from supplying Eagle Rock. Asked as to how this might be done, he said it would be possible to supply electricity from the high tension cable for a local substation or run a low voltage line back from Glendale to this city's west limits.

Glendale charges only 6 cents per kilowatt hour and makes all service connections to houses and other patrons free and are adding consumers at the rate of seventy-five a month.

Of course Mr. Lynch did not come before the board looking for customers but very kindly and freely answered all questions asked him. When the proposition comes before the board in a more definite form next Monday evening there will be a full understanding of the possibilities.—Eagle Rock Sentinel.

W. C. T. U. NOTES.

Regular meeting of the Woman's Christian Temperance Union will meet Friday at 2:30, July 19, at the First M. E. church. At 3:30 p. m. Rev. W. E. Edmunds, pastor of the Presbyterian church will give an address on "Christian Citizenship." We hope as many as will sacrifice a little time to come and fill the house. Let every member be present with a friend at the beginning.

Many interesting topics discussed and large numbers attended both morning and afternoon. Morning Scripture lesson, 46 Psalm, by president, was from a grateful heart to our heavenly Father for victories accomplished in enforcing the liquor ordinance recently. Mrs. Julia D. Phelps county president, presided.

Symposium, "Our Greatest Problem and how we meet it," was answered by the presidents of Burbank, Lancaster, Somerset, Central and Los Angeles Unions of city, and Glendale, in five-minute talks, which brought out problems we have to meet as an organization and opened the way for an interesting discussion.

Mrs. Elizabeth Mills of Santa Ana gave us of her inspiration from time to time, and Mrs. L. C. Lennox, formerly of Glendale was present. Miss Olive Marsh, superintendent of music, deserves praise for her part in preparing so many good numbers.

Misses Margaret Luby, Eva Thede, Marion Addison, Alleen Mc Masters, rendered two beautiful choruses at both sessions. Mrs. Lucy Blanchard, state W.C.T.U. president, gave an address on "True Patriotism." The prohibition party, she said, is the only one to vote for that protects the home. Mrs. Phelps gave plans of work, and with nontide prayer the morning session closed. Picnic lunch was much enjoyed and well patronized.

At 2 p. m. Mrs. Loveless gave an instructive Bible reading and had charge of devotions. Rev. Joseph Soper, returned missionary from Japan, gave a delightful talk on the work our society have done since its beginning in bringing temperance missionaries there sent out by our national W.C.T.U. having met many of them while a resident there for 23 years.

Solo, Mrs. McGavin of Lancaster, "Brighter Days Are Coming."

Mrs. Phelps demonstrated the "Civic Reading Course," endorsed by our county. Duet, followed this by Mrs. Butterfield and Mrs. Gaylord.

"Cast Your Ballot for Prohibition." Mother's hour was conducted in an able manner by Mrs. Ruby Smart, singing a solo. "Mrs. Laura Marsh recited a poem on "Mothers So Tired."

Mrs. A. W. Burn gave a reading on "How the teachings of scientific instructions in the school helps the mother." Mrs. W. R. Reynolds on "Legislation." Mrs. Anderson, president of Burbank Union, sang an original composition entitled "Voting."

"Children's Hour" was devoted to the deleterious effects of tobacco and alcohol, drawn on blackboard conducted by State L.T.L. secretary, Mrs. Ellen Dayton Blair of Los Angeles.

Mrs. Hattie E. Gaylord, Pres.

CANDIDATES FOR THE ASSEMBLY.

Mr. J. M. Lampert, of Glendale, announces himself a candidate at the primaries on Sept. 3d, for the nomination for assembly in this, the 61st district. It is creditable to Mr. Lampert that he has not the endorsement of the committee of fifteen, which we understand is backing Mr. G. D. Roberts.

P. E. O. PICNIC.

Chapter 1, of Glendale, and Chapter AH of Tropic united in holding their annual summer picnic on Saturday at Echo Park, where they entertained the members of their families at supper. Paper plates were arranged for forty-five and a delicious picnic supper was served, which was followed by a pleasant hour on the water. Mrs. Henry Smith of Berkeley was among the guests.

Adventists' Camp

The Southern California conference of Seventh Day Adventists will hold their annual conference and camp meeting in Glendale from August 5 to 18. About 2000 people from different parts of Southern California will attend this meeting. A camp of more than 400 family tents is now being erected one block west from the electric railway station on Fourth street, and 35 men are now busily engaged in erecting the canvas city. The main auditorium will accommodate a congregation of 2500. Besides many other meetings there will be preaching three times a day in the big pavilion. A large choir and a fine orchestra will furnish the music. There will also be held meetings in Spanish, German and Scandinavian languages. Also a large dining tent will be erected on the grounds where meals will be served on the cafeteria plan. All are invited to attend the meetings and will be made welcome.

LIBRARY NOTES.

The most successful of the "Story Hours," which have been held recently from 9:30 to 10:30 on Tuesdays, was the one just past. The story of Abraham Lincoln's life held the spell-bound attention of forty-five boys and girls.

New books to be obtained from the library shelves are: Through the Postern Gate, Paul Anthony Christian, Wake Robin, Man in Lonely Land, The Mountain Girl, the Postmaster, The Hoosier Chronicle, Just and Unjust, Guests of Hercules, Melting of Molly, Peacemakers, The Street Called Straight, Sally Salt, The Yoke of Silence, The Old Nest, Lost Farm Camp, Butterfly House, Down Home With Jennie Allen, The Spirit of Youth, Danny's Own Story, A New Conscience, A Modern Evil, House of Pride, The Band Box, Her Weight in Gold, Stover at Yale, John Kawn, Captain Joe's Sister, Boss of Little Arctady, Touchstone of Fortune, Recording Angel, Polly of the Hospital Staff. New standard editions are: Lowell's

Poems, Morte D'Arthur, Milton's Poems, Swineburne, Biography of Jane Austin, Holmes and Whittier. A list of the new juvenile books will be printed next week.

When Death Cools His Sting. There is a curious superstition in Jamaica that if a death occurs in the house all the water in it is poisoned at once and must be thrown away, the reason given being that Death cools his "sting" after destroying life in the first water he finds, and as no one can tell-death being invisible—what jar he may choose it is safest to throw it all away. Careful people to save trouble even carry all water out of the house immediately before a death is expected.

His Occasional Wish. "Why don't you ever want to go to a wedding?" snapped Mrs. Enpeck. "I don't believe you've been to a wedding since you attended your own." "No," mildly responded Mr. Enpeck, "I haven't. And," he added softly to himself, "I sometimes wish I hadn't attended that one"—Exchange.

Hollow, All Right. Griggs—What odd expressions these novelists use! For instance, in this book you loaned me the author tells of the heroine speaking "in a hollow voice." Griggs—Well, that's all right in her case. You see, she had tried her voice on the stage, and there was nothing in it.—London Sketch.

Welcome Trouble. Miss Newitt—May's in trouble. She's had proposals from two men and can't choose between them. Miss Passay—Heavens! And does she call that trouble?

UNUSUAL VALUES AT NEW STORE

Glendale residents will find unusual values in lace at the Norton store, 411 South Brand boulevard, and especially will this be true in the excellent line of five-cent laces offered by this establishment. A tempting variety of art goods, flosses and silks may also be found there. However, one of the features of the Norton store is the unexcelled assortment of strictly up-to-date May Manton's patterns, which sell at the reasonable price of 10 cents each. Mrs. Norton, proprietor, assures the Glendale people that patrons will receive courteous and fair treatment, and that once a customer there will mean always a customer.

A COMMON ERROR OF DRESS-MAKERS.

And one that does a great injustice to the dress goods and material, is carelessness in using patterns. Before you decide on the making of your new dress, investigate my ONE-PIECE Ladies' Tailor System and large Quarterly Instruction Book closely, and let me show you the difference between cheap store patterns and those drafted according to measures taken correctly, and then you'll know whether or not there's any truth in the statement that I teach the very best Dressmaker's Tailor System of today at Burbank (lessons by mail, if preferred). Note the crowd! All going to Nesom's Drug Store. Why? Because they are serving the right drinks in the correct way.

MILLINERY STORE REMOVAL.

Mrs. Anna L. Smith and Mrs. Leonora M. Miller have removed their millinery establishment into the new Boyd block, corner of Broadway and Maryland avenue, 1024 W. Broadway, where they have a corner window constructed especially for them, so as to permit of an extensive display of their goods to the best advantage.

The present time being "Between Seasons" no particular attempt is being made to display, but when the time comes around for "Fall Goods" there will undoubtedly be exhibited something worth while. The sales-room is large and well lighted. At the rear are two small private rooms and back of these a well-appointed work room where are manufactured the adornments of the feminine head in all of the approved styles.

Hudnut's Gardenia is the perfume for fastidious people. Can be found at Nesom's Drug Store.

CENTRAL STABLES.

Corner Broadway and Maryland. Yes, the weather is "unusual," but if it keeps on a while we shall get used to it. It doesn't interfere with the business of the Central Stables—a spin over the valley behind one of our spans is a remarkable refresher-try it. Anything else in our line you will find just right.

COUNTRY CLUB AT HOME.

The Maids and Matrons enjoyed one of their pleasant monthly "At Homes" on Monday in the club parlors, which were cool and inviting with bowls of cut flowers and ferns. Miss Alice Grey Beach and Miss Grace Beach served delicious cooling refreshments. Hostesses of the afternoon was Mrs. V. Price Brown, who presided for Mrs. John Robert White, Jr., who was unable to be present.

Notice

OF THE RECORDING OF THE ASSESSMENT AND DIAGRAM FOR THE LAYING OUT, OPENING AND WIDENING OF BRAND BOULEVARD IN THE CITY OF GLENDALE.

Notice is hereby given that the assessment and diagram for the laying out, opening and widening of Brand Boulevard, between the south line of Sixth Street to the south line of Grider and Hamilton's Loma Park, in accordance with Ordinance No. 150, was recorded in the office of the City Street Superintendent of the City of Glendale on the 10th day of July, 1912.

All sums levied in said assessment are due and payable immediately, and payment of said sums is to be made to me in my office, at the city hall in said city, within thirty days after the 10th day of July, 1912, which is the first day of publication of this notice.

All assessments not paid before the expiration of said thirty days (August 17, 1912), will become delinquent, and thereupon 5 per cent upon the amount of each such assessment will be added thereto, and the property advertised for sale as provided for by law.

O. W. TARR
Street Supt., City of Glendale

Not Quite.
A rancher returned from a year's trip through the east to find that a one time neighbor of his, a man noted for his perfect patience, had been having a siege of bad luck. Upon hearing the news he immediately sought out the neighbor to console with him.

"Well, John," he said after greetings had been exchanged, "I hear you lost all of your timber through the forest fires."

The other man nodded. "And they say that the river cut off your best bottom land, that your boys all died of cholera, that your wife and children have been sick and that they have now foreclosed the mortgage on your other place."

John nodded again. "Yes, it's all true," he said, looking about him at what had once been his prosperous farm. "All true. Why, sometimes I get almost discouraged."

Ladies Home Journal.

An Optimist.
The late W. Bayard Cutting, said a member of the Century club of New York, was an optimist himself and a firm believer in optimism.

Once during a disastrous strike he rebuked his pessimism with a story. "A Mississippi farmer," he said, "was inundated by the spring floods, and one day while his farm was under water a friend found him laughing and joking in a barber shop."

"George," said the friend, "the flood's hit you terrible, hasn't it?" "Oh, yes," answered the farmer, "the flood's hit me, there's no denying that. Then he smiled and added: 'But out in my wheatfield this morning I landed eight of the finest catfish Mississippi ever turned out. We had 'em fried for breakfast, with waffles. Friends, can you beat catfish and waffles to begin a cheerful, optimistic day on?'"—Washington Star.

Curran's Wit.

Lumpy Foot, the tobaccoist, applied to John Curran for a motto when he first established his carriage. "My dear Curran," said he, "give me one of a serious cast, because I am afraid the people will laugh at the idea of a tobaccoist setting up a carriage, and for the scholarship's sake, let it be in Latin." "I have just hit on it," said Curran. "It is only two words, and it will at once explain your profession, your elevation and your contempt for their ridicule. It has the further advantage of being in two languages, Latin or English, just as the reader chooses. Put up 'Quid rides' upon your carriage." As English the words speak for themselves, and "Quid" for the tobacco dealer is pat and clever. Read as Latin the two words put this interrogation, "Why do you laugh?"—Boston Post.

The Ball and the Bird.

In the American Magazine "Hugh S. Fullerton, writing an article on freak plays in baseball, tells about a team once managed in Chicago by Jimmy Callahan. This team was called the Logan Squares. The Logan Squares played a game with a famous colored team called the Leland Giants. Fullerton goes on: "In this game, which was to decide the city pennant championship, a freak play occurred that helped the Leland Giants to win. A batted ball that was going safe over the head of the second baseman struck an English sparrow, killed the bird and fell directly in front of the baseman, who threw the runner out and saved the game. If you doubt this Callahan will show you the bird, which he had mounted to keep as a souvenir of what hard luck may do to a ball club."

Got Them All.

The doctor told him he needed carbohydrates, proteins and, above all, something nitrogenous. The doctor mentioned a long list of foods for him to eat. He staggered out and wobbled to a restaurant.

"How about beefsteak?" he asked the waiter. "Is that nitrogenous?" "The waiter didn't know.

"Are fried potatoes rich in carbohydrates or not?"

"The waiter couldn't say.

"Well, I'll fix it," declared the poor man in despair. "Bring me a large plate of hash."—Washington Herald.

She Paid on the Investment.

"Here," complained the aggrieved father, "I have spent nearly \$15,000 on that girl's education, and now she goes and marries a \$2,500 a year clerk."

"Well," said the friend of the family, "Isn't that all of 15 per cent on your investment? What more do you want?"

Always on the Job.

"No, Mr. Rogerson, I cannot be your wife."

(Quickly recovering himself, "Well, that ends it. May I ask you, Miss Lodenia, if you are carrying all the life insurance you want?"—Chicago Tribune.

Stingy.

Mother—Did you have a good time at the party? Willie—Naw I said so when they asked me to have some more ice cream, and the stingy things never asked me again.—Philadelphia Record.

Golden Text—Thy kingdom come.
Thy will be done in earth as in heav-
en. Matt. vi 10.

(1.) Verse 26—What does "the king-
dom of God" here stand for?
(2.) What seed is here referred to
and what is the ground in which it is
sown?

(3.) Whom does the "Man" repre-
sent which sows the seed and how is
the seed sown?

(4.) Verse 27—After a minister or
teacher or any other Christian has
sown the seed of the gospel ought he
to be restful or anxious concerning its
growth? Give your reasons.

(5.) What is the proof that the seed
of the gospel will when sown always
bring forth its proper fruit?

(6.) Verse 28—The earth produces a
great variety of things by self propa-
gation, without human instrumental-
ity. Would you say, or not, and why,
that Christianity is in any measure
analogous to this? (This is one of the
questions which may be answered in
writing by members of the club.)

(7.) In preaching the gospel in hea-
then lands what are generally the
first results and what are the various
stages in the process toward the ripe
fruit of Christianity?

(8.) What is the meaning of "the full
corn in the ear" as applied to the fruit
of Christianity?

(9.) Verse 30—When the seed of the
gospel is sown in a human heart or in
a country does it ever die without ger-
minating even if years intervene with-
out visible fruit? Give your reasons.

(10.) What is the earthly fruit of
Christianity?

(11.) Who are they that reap the
harvest and enjoy the fruit of the gos-
pel?

(12.) When will the final harvest of
Christianity be reaped and what will
it be?

(13.) Verse 30—What would you com-
pare the kingdom of God to and what
are some of the other comparisons
which Jesus makes elsewhere?

(14.) Verses 31-32—What are some
things like the mustard seed, exceed-
ingly small, upon which vast issues
depend?

(15.) What evidence or incidents can
you give to illustrate the fact that the
small mustard seed becomes a very
large bush?

(16.) In what respect or in how
many respects is Christianity like the
mustard seed?

(17.) What is the quality in the gos-
pel of Jesus which makes its seed so
virile?

(18.) Matt. xiii 33—Whom does the
woman in this parable stand for?

(19.) What does the heaven here rep-
resent?

(20.) What will be the final effect of
Christianity upon this nation?
Lesson for Sunday, July 28, 1912.

Color Analysis.

It is rather interesting to know how
a color can be broken up into its con-
stituent parts. Take, for instance,
mauve or pale green. How can any one
tell just what different colored lights
compose such a color? It is all done
with the prism, that wonderful little
three sided piece of glass used in spec-
toscopes and other instruments. It is
done on the same principle as the
analysis of sunlight is accomplished by
little particles of water in showing the
rainbow. There are only seven pri-
mary lights. If sunlight containing all
colors falls on a red object all the col-
ors but red are absorbed, the red being
reflected to our eyes, so we say the ob-
ject is red. The prism will not split
up red into any other colors, for it is a
primary color. So is blue. But if pur-
ple be tried we get two colors apart,
blue and red. We do not find purple
in the spectrum, so any color not found
in the spectrum of sunlight is known
to be a compound one. It can always
be analyzed by the prism.—St. Louis
Republic.

Lincoln and Sumner.

Lincoln was modestly proud of his
stature and of the effect of the phys-
ical man, especially when actuated by
noble sentiments. He used to speak of
his height to every tall man he met
and to propose measuring, another
guileless habit of self gratification.
The only refusal he is known to have
received was from Charles Sumner,
who was also tall and proud of his
height. Sumner was worrying the pres-
ident, as he often did, about some per-
plexing matter when Lincoln abruptly
challenged him to measure. "Sumner
declined," said Lincoln, "making a fine
speech about this being the time for
unfolding our fronts against the enemy
and not our backs. But I guess he
was afraid, though he is a good piece
of a man. I have never had much to
do with bishops where I live; but do
you know, Sumner is my idea of a
bishop."—Harper's Weekly.

Didn't Know How Happy He Was.
George Arliss, himself a Britisher,
delights in telling stories about his
countrymen, especially of the "Arrie
and Arriet type.

"One day," says he, "I was on Hamp-
stead Heath and heard the following
conversation between these purely
English types:

"Said the man: 'Blow me, 'Arriet,
'ow tired I feel! Miserable tool! Wish
I'd never been born! Now I've been
born, wish I was dead again!'

"'What's the matter with yer?' asked
'Arriet. 'Wat-yer grumblin' at? Why,
'wat on earth would yer 'ave? Yer
was drunk on Monday and again on
Wednesday, and I'm blessed if yer
'aven't 'ad more than enough today!'
If that ain't enough pleasure for yer
I don't know 'wat is. I suppose yer
wants to be a downright hangel 'ere on
earth!'"—Chicago Record-Herald.

No Wonder He Wouldn't Sell.
Captain Amundsen told an amusing
story of one of his arctic expeditions.
Several of his dogs having died, Cap-
tain Amundsen asked one of the na-
tives in his best Eskimo if he would
sell him a few dogs. To his surprise,
the request was promptly refused.
The explorer and the Eskimo had a
long argument, the explorer pointing
out that he must get dogs somehow
and the Eskimo replying that they
never sold them.

"Nonsense!" Captain Amundsen ex-
claimed. "I have often bought dogs."
The Eskimos seemed immensely as-
tonished, and at the end of another
argument Captain Amundsen discov-
ered that instead of using the Eskimo
word for "dogs" he had been asking
the man to sell him some "children."

An Odd Record.

Miss Julia Moore, Sir John Moore's
niece, like many very old people, was
extremely proud of her age and lost
no opportunity of showing it. When
she was asked by a friend if she was
going to see the coronation of King
Edward VII. she answered: "No. I
have been out of London for the last
three coronations, and I don't care to
alter my record." What an exaltation
one must feel of being able to say a
thing like that!—London Standard.

Praying For the Sister.

Mrs. Bitter—I just hate that woman.
I hope she'll lose all her money, get
some disgusting illness, be run down
by a train—Rev. Goodhart—Sister,
sister! We are told to pray for our
enemies. Mrs. Bitter—Well, I'm pray-
ing for all those things for her.—Phila-
delphia Press.

But He Told the Truth.

"Rumsy told me he was a lawyer,
and I find he is nothing but a hanger-
on of saloons."
"I heard him, and he told you the
literal truth. He didn't say he was a
lawyer. He said he had a steady prac-
tice at the bar."—Baltimore American.

Brain Trouble.

"Oh, yes; Dubley is a harmless sort
of fellow! The only thing about him
is that he has brain trouble."
"Nonsense! He hasn't any brain at
all."
"I know; that's the trouble."—Cath-
olic Standard and Times.

Over the Family Album.

"Mamma, is Aunt Jane a blood rela-
tion?"
"Yes, dear."

"Is she one of the bloodiest we
have?"—Life.

Wobbled All Over.

"Do you think he'll leave any foot-
prints on the sands of time?" "He
ought to leave a good many. He's al-
ways sidestepping."—Kansas City Jour-
nal.

Patience: Who's He?

The old "bred in the bone" Cornish-
man of upper Michigan is a character
that once met is not soon forgotten.
While he has a distinct sense of hu-
mor, he is funniest when he least in-
tends to be, and this is due in no small
degree to his peculiar dialect, the lat-
ter being not only difficult to under-
stand, but still more so to reproduce.
The following is typical: The boss
went up in a raise where two of his
old reliable workmen were drilling,
greeting them with "'Ow she coming
up, boys?" "Some slow, cap'n, some
slow." "Well," said he, "ne'er mind,
patience and perseverance will put us
through." And the captain walked on.
Said one of the men in the raise,
"Perseverance?" "Blowed if I da
know, lest be they taw bluddy Fin-
landers in tuther stowp."

Half an hour later found Henry and
his partner demanding their pay up to
date just as the captain stepped into
the office. "Well, me sons, what's
matter?" "Wur leavin', cap'n. If
yaw dha want they taw bluddy Fin-
landers to put us through you can 'ave
'ey. Patience and Perseverance, ay?
You can 'ave 'ey, you can 'ave 'ey."—
Engineering and Mining Journal.

A Grouchy Clerk.

The clerk in the postoffice was
grouchy. We suspected that he had
been out late the night before, and we
trod lightly and spoke gently, but in
spite of our decent precautions he
snarled at us. We decided that it
would be better not to address him at
all. So we approached the stamp win-
dow at which he presided and mutely
pushed two copper pennies across the
counter.

"Well, what do you want?" he
growled, looking at the coppers and
then at us.

"A house and lot," we stammered,
taken off our guard, "but the bedroom
windows must face the south, and the
garden should"—

But he swore frightfully and, hand-
ling us a two cent stamp, merely ex-
claimed:

"Get out of the line; there are other
customers!"—Cleveland Plain Dealer.

The Wily Sexton.

Visitors to the Old North church are
shown through the historic old build-
ing usually by an elderly man who
seems obsessed with a love for the
church. His fund of reminiscences is
refreshing, and the most interesting
thing he recounts is the story of how
the lanterns were placed in the belfry.

According to his version of the historic
incident, the sexton overheard some
English officers talking in the house he
lived in and immediately hung the lan-
terns. Returning to his room, he saw
that his shoes were caked with mud
and he thought of replacing them with a
dry pair.

"The next morn'g, after they learned
that a sexton had been hanging from
the belfry, rushed to the room of the
sexton, but, finding his shoes dry, be-
came convinced that some one else had
hung the lanterns and then locked all
the doors of the edifice."—Boston Jour-
nal.

Carrying Out Instructions.

"Now, Thomas," said the philosophic
father, "you are going out into a new
land, where brain and muscle alone
count, where ability is the sole pass-
port to success. Make one firm resolu-
tion. Come what may, be determind
to hold your own."

Some years later the old gentleman
paid a visit to his son, who had in the
meantime taken out himself a wife.
On entering his son's domicile he found
him nursing twins.

"I took your advice, you see, dad,"
said the younger man.
"What advice?" asked the old philos-
opher, who had forgotten his parting
admonition.

"Holding my own," replied the duti-
ful Thomas.—London Tit-Bits.

Force of Habit.

An actor had the misfortune to fall
off a ferryboat at night. Of course
there was great confusion on board.
The searchlight was turned round and
round in an effort to find the man. He
came up for the third time just as the
light struck him, and from force of
habit the actor raised himself and de-
livered a most ceremonious bow. Then
the rescuers grabbed him.—Chicago
Tribune.

After the Mother.

"Does your son take after you?"
"I used to think he was going to, but
now that he's in college he shows ev-
ery sign of taking after his mother."

Made It Clear.

"Algernon, am I the first woman you
have ever loved?"
"Not exactly. I was in love with my
teacher at ten and with a circus rider
at twelve. But you are the first girl I
have ever asked to marry me, my
dear."—Washington Herald.

What He Cut.

Willis—My son was spending so
much at college that I told him he
must cut out some of the luxuries.
Gillie—Did he do it? Willis—Yes. He
writes me that he has been cutting
classes ever since.—Judge.

Effective.

"What do you regard as the best
protection from burglars?"
"Well, I have found that being inde-
pendently poor is effective."—St. Louis
Post-Dispatch.

If you would have a faithful servant
and one that you like, serve yourself.—

Miss Ruth Locke of Los Angeles passed several days this week with Mrs. Fannie M. Retts of Palmer avenue.

Mrs. David Bardwell is enjoying a stay of several weeks at Murietta Springs. She left for the Springs the first of the week.

Dan Campbell, president of the Bank of Tropic, with his family, enjoyed a trip by auto to San Diego, recently. He reports a delightful time.

Miss Mattie Kendall and Miss Rebecca Ludwig of Pittsburg, Pa., are enjoying a short visit with Mrs. Anna L. Smith of Riverdale Drive.

Mr. and Mrs. E. J. Morgan have as house guests for several days, A. W. Collins of Redwood City, who was formerly a resident of this place.

Mrs. Carl Schoenfeld of Brand boulevard, are entertaining for several days Miss Flossie Armstrong, of Bisbee, Ariz., formerly a resident of this place.

There will be a large attendance from the Sunday schools of this place at the annual picnic of the Sunday school association of this valley to be held at Long Beach on July 23.

A vacation trip is being enjoyed by Mr. and Mrs. F. C. Richardson and son, Nevill, at their former home town Santa Paula. They are passing some time with Mr. Richardson's parents, Mr. and Mrs. W. C. Richardson.

Roger Baker is enjoying a trip of several weeks in Yosemite Valley. Before leaving the young man was tendered a surprise at his home on Cypress avenue by a company of his young friends.

Mr. and Mrs. George F. Stine of Adacia avenue are entertaining for several weeks their daughter and son-in-law, Mr. and Mrs. Charles P. Coates of St. Louis. Mr. Coates is an attorney and director of the Eugene Field Manual Training school of St. Louis.

Upon a suggestion of City Health Officer Dr. Tholen, the Tropic Water Company has been instructed that it is expected to at once cleanse its reservoir and when it is refilled to fill it to at least ten feet, and not to allow the water to run lower than that mark.

The missionary society of the Tropic Methodist church enjoyed an afternoon tea at the home of Mr. and Mrs. W. B. Pratt on Glendale avenue, Tuesday. Miss Hong, a Japanese girl who is studying to be a missionary in Japan, and Mrs. Miller of Pasadena, gave addresses during the afternoon.

A lawn social will be given by the Ladies' Aid society of the Methodist church at the church parsonage on Central avenue, this, Friday evening. Games and a general good time has been prepared. Ice cream and cake will be served for 15 cents and home-made candy will be on sale.

A warrant for \$18,967.04 was given to Contractor Ferry, Saturday last, for the improving of Glendale avenue from the northern limits of Tropic almost to the Tropic grammar school. Without doubt this is the finest piece of roadwork done by the residents along any street in this district.

The members of the Glendale Christian church gathered at the home of Rev. J. W. Utter on Moore avenue last Friday evening to help him celebrate his twenty-first anniversary in the ministry. The evening was passed in games and music and refreshments were served.

An enjoyable event was the party given by Mr. and Mrs. Edgar Stuart Ayers at their home on West Park avenue last Thursday evening. Music and games were enjoyed, after which refreshments were served. The guests included the Baraca and Philathia classes of the Tropic Presbyterian Sunday school.

Mr. and Mrs. H. W. Myers of Central avenue entertained the Baraca and Philathia classes of the Presbyterian Sunday school at their home recently. Games were served on the lawn by the young ladies at 6:30 o'clock, after which the time until dark was passed in outdoor games. An unusually pleasing time was reported by the guests.

TROPICANS INSTALL GLENDALE-ITES.

The Tropic Lodge of the Fraternal Brotherhood installed the officers of Glendale Lodge No. 304 last Friday evening. Since the event, Capt. Brown and his drill team from this city have been receiving all kinds of compliments from those who were present.

TO AWARD CONTRACT.

Contracts for the grading, macadamizing, curbing and sidewalking of the streets in the 80-acre subdivision of the Richardson property at the southwest corner of Brand boulevard and Southern Pacific tracks will be let this week. It will be remembered

that this piece of ground was purchased some time ago by a syndicate of Pasadena capitalists, who promise to make this one of the sweetest residence sections in the valley. It lies within the limits of Los Angeles.

MUST HAVE IMPROVEMENTS.

The following communication has been written by Frank H. Davis, proprietor of the Davis Grocery company to the people of this place:

There are so many things of interest to occupy one's time and attention at this time, I fear that many are overlooking the very important matter of local affairs.

Few realize at what a rapid rate we are growing. The city has been incorporated fifteen months only.

Our population has increased from 2000 to 2500. Our taxable property from \$60,000 to \$85,000. Over 100 houses have been built. Piano factory being erected. Hospital to be built. Public library soon to be built, and so it goes.

We must have electric lights. How about our water—and many important projects coming up that should be looked after and thoroughly discussed by some live, energetic organization. The Chamber of Commerce is doing what it can in a quiet way to guard the interests of the city. Yet we do not receive the support we should from the people. And I think it is the work of the citizens to encourage the work by joining and attending the meetings of this organization.

At a recent meeting in the city hall, which was well attended, a resolution was passed asking the board of trustees to call a bond election for \$25,000 to put in city lights. It was also the sense of the meetings that the city take over the Brand plant in this city, and buy its electricity from some of the big power companies.

Mrs. George Howe has the petition required to call the election. It takes 264 signers, of those on the last tax roll of the city to call the election.

So I would urge all those who are interested in seeing the city have lights, to not only see that your name is on the petition, but see that your neighbor's is too.

Meetings will be held from time to time, in which these different matters will be taken up. The water question is a serious one and should be looked after.

Just now Boost the Lights.

WEST GLENDALE

Mrs. J. W. Everett and daughter, Gladys, spent Sunday at Venice.

Mr. and Mrs. Nicholls of Salem street are the proud parents of a fine baby boy, the first and finest in town.

Mrs. Nellie Allender and Miss Bertha Fitzmiller of Los Angeles were guests of Mrs. Carrie Russ of Burdett street.

Mrs. Laura Scammon spent a few days at Long Beach returning on Monday with her daughter, Mrs. Russ and little son.

Mr. and Mrs. Bert Engle of Edendale and Mr. Leland Cocksell of Los Angeles spent Sunday with Mr. and Mrs. Wm. Glover.

Mr. Fred Deal, manager of the Sunset Telephone Co., with two young men of Glendale, are busy this week distributing the new books to the numerous subscribers of the Valley.

Mrs. Laura Scammon, Mrs. A. M. Mortensen of Tropic and Miss Ida Ludlow of Burbank were luncheon guests of Mrs. J. O. Elliott on Wednesday.

Mr. J. W. Everett with his son, Irving, have returned from a fishing trip at Wheeler's Springs. They report a fine time with fairly good success. Mr. Everett is finishing up his vacation by enjoying a few days at the beach.

There are some few cases in Tropic and Burbank, but these are under the strictest quarantine, and it is hoped that the disease may be checked before it becomes an epidemic. There are some few hundred known cases in Los Angeles, according to the papers.

We do not know whether it is generally known or not, but the dreaded disease, Infantile Paralysis, has taken hold in Glendale. As far as is now known, there are but very few cases in Glendale, these being under quarantine. This disease, which is dreaded by every one all over the world, is said by physicians to be very contagious to any child coming in contact with the one afflicted, and no one with children can be too careful while the trouble is prevalent.

Christopher's Ice Cream is the real thing in every sense. Packed and delivered in any quantity from Nesom's Drug Store.

PINK TEA ANNOUNCEMENT.

Mrs. Menzo Williams of North Central avenue presided, Thursday at a charming afternoon tea at Hotel Alexandria in honor of her daughter, Miss Emma Williams, whose marriage to Mr. Harry W. Peterson was announced for September 17th, 1912.

The table was simply but most effectively arranged with Shasta daisies and maiden-hair ferns. A large rustic basket overflowing with daisies and ferns made a graceful centerpiece, a low mound of the flowers extended down the center of the table, at either end of which stood a tall silver candelabra bearing myriads of pink shaded candles. The announcement was prettily made by place cards wreathed with tiny, hand-painted cupids attached by white satin ribbon to small envelopes containing gold-lettered cards which read: Emma Williams-Harry Peterson; September 17, 1912. Covers were laid for twenty-six. Following the tea a short reception was held in the ladies' parlors.

Those present were: Mrs. Menzo Williams, Miss Emma Williams, Miss Nellie Williams, Miss Clara Peterson, Miss Bertha Peterson, Miss Berenice Williams of Glendale, Mrs. John Percival, Mrs. Albert Winters, Mrs. Isabelle Grey, Miss Jessie Cushman, Miss Marjorie Maughlin, Miss Sadie Douglas, Miss Grace James, Miss Kie Julie Christin, Mrs. Carrie Trowbridge, Miss Christine Sundin, Miss Sylvia Tischhouser, Miss Julia Smith of Los Angeles, Miss Marjorie Hardy of Alhambra, Miss Grace DeLano, Miss Eleanor Clemons of Pasadena, Miss Evelyn Stone of San Francisco, Mrs. L. R. Garrett of Eagle Rock, Mrs. Elizabeth Manning of Scranton, Pa., Mrs. Florence Landers of Hollywood and Mrs. William Cook of Long Beach.

Miss Clara Peterson, Miss Bertha Peterson and Miss Nellie Williams received with Mrs. Williams.

Mrs. A. J. Casebeer of 1445 Lomita is having a tussle with the grippe.

Miss Louise Robinson of 1547 Vine street, has been seriously ill of throat trouble, but is now recovering.

A. J. McLouth and family of 1226 Chestnut street are spending a few weeks at one of the beaches.

C. M. Blake of 1550 West Fifth street, suffered a paralytic stroke a few days ago and is now almost helpless.

Mrs. Schilling of San Jacinto was the guest of her old friend, Mrs. S. E. Munn, of 1615 West Sixth street, last week.

Henry Bell and family have moved into the new house recently built by Mr. Bell and his sons, just west of 1510 Vine street.

Mrs. Ellis Foy and the three younger children of 1515 West Seventh street are camping near San Fernando for a few weeks.

F. L. Noble, Jr., and wife have sold their place on Ninth street near Central and will return soon to their former home on Seattle, Wash.

W. D. Clark and family have moved into the tent house at 1433 West Seventh, so they can repaint and repair the interior of their pretty bungalow at 1520 West Seventh.

They say fire and water will not mix, but we believe that if somebody would "mix" with the water company that is now torturing the citizens of Glendale and Tropic, and cause the officials who are at the bottom of the trouble to be "fixed," everybody would feel relieved.

F. O. Heebing moved his family from 1614 Oak street to 226 Avenue 20, on Monday, so as to have them near his place of work. The Heebings have lived in Glendale several years, formerly owning the business now conducted by Kilborn & Peters at 1601 Vine street.

The aeroplane that is being constructed in the vacant store building just south of Kilborn & Peters' store, on Pacific avenue, by Thos. Day and Henry Meyer, both recent employees of Glenn Martin, will be completed this week and taken over to the Griffith Park field to be put together.

Prof. A. M. Brooks, who has been chosen as principal of the new intermediate school at Third and Jackson, has moved to Glendale, occupying the house at 1610 West Fifth, close by the church. He has a wife and four children. Prof. and Mrs. Brooks are Methodists and they will be heartily welcomed by Pastor Morrison and his flock.

The new piano factory just below Valley View is beginning to loom up. According to one man who applied to the company constructing it, for a job, they have a novel plan to start off with a big sale of instruments. They refuse to employ any man who will not contract for a piano, small pay-

Ten-year-old Oliver Clark had quite an exciting experience Monday, proved himself a hero and came out of it with no broken bones, very luckily. He was holding a horse that was hitched to a delivery wagon, when the animal suddenly bolted, going up Pacific avenue in a dead run. Oliver pluckily held to the lines, though flung into the air twice when the wagon bumped into the roadside ditches, and when the wagon was overturned by the horse suddenly turning into Oak street, he was tossed gently out, suffering only slight abrasions on leg and arm. He was at play again in a few minutes.

NOTICE

After carefully studying the situation, we have decided that we can serve the public better by changing our method of soliciting.

We hope to better our delivery service by withdrawing our solicitors, as a great many of our customers prefer to order by TELEPHONE. This will give us more time to devote to the selection and handling of our goods, increasing our power to supply the best goods at the lowest prices.

We will maintain our present high standard of quality, guaranteeing all goods sold to be as represented or money will be refunded.

We hope by the improved service and lower prices to merit a continuance of the business given us in the past.

Thanking you for your patronage in the past, we solicit your future business.

Yours truly,
